

Current Methods in RNP Analysis

21.-25.07.2014 | Regensburg

A workshop on a selection of current techniques to analyze RNPs will be organized by the Graduate Research Academy in Regensburg. Expert lectures will be accompanied by practical training sessions with qualified instructors of the Collaborative Research Centre 960.

**METHOD
COURSE**

Topics | Instructors

Structural Probing | Jorge Perez-Fernandez

RNA Protein-Interaction Studies/ RNP-Analysis | Jan Medenbach

Novel Methods: MicroScale Thermophoresis (MST) (2bind) | Gernot Längst

Imaging of RNP Dynamics | Andrea Bleckmann

Invited Speakers

Benedikt Beckmann | EMBL Heidelberg

Dieter Braun | LMU München

Alfredo Castello | EMBL Heidelberg

Michael Kiebler | LMU München

Mikiko C. Siomi | Keio University

Sarah Woodson | Johns Hopkins University

Registration | www.graduate-academy.sfb960.de

Deadline | 15 May 2014
