

The Chairperson of the Examination Board

Notice

on final module examinations in the winter semester 2023/2024 for the Master's programs

Chemistry (in accordance with the examination regulations of June 14, 2010),

COSOM (in accordance with the examination regulations of August 25, 2011),

Medicinal Chemistry (in accordance with the examination regulations of August 11, 2021),

Advanced Synthesis and Catalysis (in accordance with the examination regulations of June 8, 2016),

Business Chemistry (in accordance with the examination regulations of August 8, 2022).

**General examination period:
from February 1, 2024, to February 28, 2024**

Registration: from December 1, 2023, to January 8, 2024

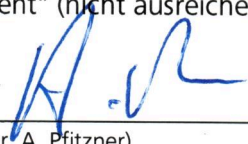

Please note that a legally valid registration can only be made on **FlexNow** and **TEMPO** within the registration period shown.

- Step 1: Agree on the examination date with a professor of your choice in TEMPO ([the intranet of Faculty of Chemistry and Pharmacy](#)).
- Step 2: Register in FlexNow, giving the name of your examiner (your examiner will tell us the examination date, the time slot will be allocated by the examinations office).

The binding announcement of the date and time of the examination will take place latest two weeks before the general examination period on FlexNow.

You can withdraw from the examination without giving reasons on FlexNow until 5 work days before the start of the general examination period. After this date, you have to apply to the examination office for a withdrawal, giving reasons (see the homepage of the Examination Office for Chemistry).

Should you miss the examination without being excused, it will count as taken and graded as "not sufficient" (nicht ausreichend).

(Prof. Dr. A. Pfitzner)
