The only consistency through all sources lies in the Lauds antiphons and the responsories. Otherwise the following groups emerge:

M-A: G S (S adds three commune antiphons)

B E M V / H R F L

2V: G / H R L

H has three sets of three responsories, with a commune responsory added at the end.

CO does not notate M-A, but gives modal indications i-viii (sic) in margin. That these are meant as modal indications is suggested by similar indications for the succeeding responsories (not a numerical series). Antiphons a1-a4 appear after the second A in evangelium (which I have taken as for 2V).
