

Online-Seminar on Cooperative Study Programs

26 November 2021 online via Zoom 9:00 – 12:30 (CET) / 10:00 – 13:30 (EET)

Concept

Cooperative study in Bavaria combines studying at a university of applied sciences (UAS) with practical training in a company or institution. There are two models: academic study with intensive in-company training, or academic study combined with vocational training. By now, about 370 cooperative study programs or cooperative study options with more than 1.750 partner companies are available in Bavaria.

In Ukraine, cooperative study programs are a new phenomenon. The Ivan Franko National University of Lviv introduced a cooperative bachelor in “High Performance Computing” that includes practical training in partner companies as a regular part of the study. The partner companies are international enterprises of the Lviv IT Cluster where the working language is English. Project tasks and team work are further practice-oriented elements of the cooperative bachelor.

With our seminar, we would like to facilitate an exchange of experience in the field of cooperative study programs. The further development of cooperative study programs in Eastern Europe would open up new opportunities for students exchange and cooperation in practice-oriented study programs.

The organizers

BAYHOST (Bavarian Academic Center for Central, Eastern and Southeastern Europe)

The Bavarian Academic Center for Central, Eastern and Southeastern Europe BAYHOST promotes academic exchange between Bavaria and Central, Eastern and Southeastern Europe. BAYHOST supports Bavarian universities and universities of applied sciences with its specific competence in their cooperation with academic institutions in the partner countries and in initiating new partnerships.

hochschule dual

hochschule dual is the umbrella brand for the cooperative study option in Bavaria. The network not only combines all the cooperative study courses in one centralised information platform, it also acts as a service point for prospective students, universities of applied sciences and companies. As an umbrella brand with uniform standards, hochschule dual oversees and provides information about all the cooperative study programmes offered by the universities of applied sciences in Bavaria. hochschule dual is financed by the Bavarian State Ministry of Science and the Arts.
