As of 06/2022

QUALITY
THROUGH
COOPERATION

Cooperative Management of Scholarly Databases

- Structured and user-oriented access to databases in a wide range of subject areas
- Information on 14,000 academic databases, including 6,000 freely accessible ones
- Easy license management
- Quality assurance and up-to-dateness through cooperative data maintenance
- Uniform access to fee-based and free databases in one user interface
- Simple administration of the institution's own DBIS view
- Individual design through own collections and local access types

More than
350 institutions
chose DBIS:
dbis.ur.de

(currently only in German, Project
page for ongoing DFG project in
English: dbis.ur.de/projekt/en)

Contact us by e-mail:
info.dbis@ur.de

Cooperative Management of Electronic Journals

- Information on more than 113,000 e-journals in all subject areas, including 77,000 freely available titles
- Convenient administration of institution-specific licenses and central management of journal packages and collections
- High quality and topicality of EZB data through cooperative collaboration
- Uniform access to e-journals and their full texts via institution-specific and barrier-free user interface in English and German
- Traffic light icons visualize accessibility in participating institutions
- Institution-specific availability check via EZB Linking Service
- Various nationwide services for academic literature and information supply

More than
650 institutions
chose EZB:
ezb.ur.de?lang=en

Contact us by e-mail:
info.ezb@ur.de

Cooperative System for Knowledge Indexing

- Classification for systematic indexing of holdings in academic libraries and institutions
- Suitable for subject indexing and listing, for institutions of any size, for open access and stacks holdings
- Academic topicality through cooperative further development
- Convenient research in RVK-Online
- Integration of all information in the RVK web portal and knowledge management in MediaWiki
- Networked with regional and nationwide library catalogs and services, e.g. GND
- Largest classification network in the German-speaking world

More than
130 institutions
chose RVK:
rvk.ur.de
