# 1. Regensburg – The City and the University

## a) General Information

It is one of the main aspects of the university's appeal that it is situated within the attractive city of Regensburg (about 135.000 inhabitants). Various famous landmarks, such as the medieval Stone Bridge (Steinerne Brücke) across the Danube River and the Gothic cathedral St Peter's can literally tell their tales from 2000 years of history. In July 2006, Regensburg was awarded the UNESCO distinction „World Heritage“. This title recognizes the unique character of the medieval city centre and its magnificent architecture. The cityscape testifies to the economic and cultural flourishing and to the political power of the city during the High Middle Ages.

Over the course of the centuries, the old town could escape destruction nearly completely. Next to a most careful renovation and an intelligent way of traffic planning, this factor contributes to making the city centre a space brimming with life, where people live, work, shop and go out. The city is also said to be the one that features the highest concentration of sidewalk cafés, restaurants and pubs in Germany. A large number of visitors are attracted by various musical and cultural festivals throughout the whole year.

Moreover, the city is located within some charming surroundings. Amongst others, the Danube valley and the Bavarian Forest are great destinations for trips around the city. Furthermore, Regensburg has also established itself as a vivid economic centre – a development in which the university also has had its share. It is partly due to the rootedness of the university within social and economic life and partly due to the settlement of many new industrial and technological enterprises that the city has experienced a boom during the last years and can now exhibit a productivity rate that is among the highest in Germany and a constant increase in population.

The University of Regensburg, established in 1962, is situated on a modern campus in the Southern outskirts of the city. At the moment, there are 17.000 students enrolled, among them approximately 1.300 international students. There are eleven faculties in the university, which offer a large spectrum of courses of study. There are generous parkways between the buildings, which create a fruitful atmosphere for studying; by means of the local bus services, it is easy to reach the campus from the city centre and other districts.

Website of the German Railway Company (*Deutsche Bahn*) containing information on timetables, connections and prices: [www.bahn.de](http://www.bahn.de)

Coming from **Munich**, there are two options for getting to Regensburg:

### **Shuttle Service:**

There is a shuttle service called "Airportliner", which will carry you directly to any address in Regensburg from Munich Airport.

Airportliner

<http://www.airportliner.com>.

Costs: 38,- Euro

Reservation required! (at least three days in advance)

### **Bus and train:**

Travelling by train from Munich Airport to Regensburg, you do **not** need to travel via Munich Central Station! Just take Bus No. 635 outside the central building (*Zentralgebäude*) of the airport, which will take you to Freising train station (the trip will take approx. 20 minutes). ## 3. Dealing with Authorities

### a) Health Insurance

It is a prerequisite for enrolment in the university to have contracted health insurance. Moreover, it is mandatory to show a sufficient proof of health insurance for the duration of the stay in Regensburg in order to be able to register with the Foreigners' Registration Office.

Romania has a **social insurance agreement** with Germany. If you have statutory health insurance there, you do not have to take out health insurance in Germany. After arriving in Germany, please go to a public health insurance company (please take your EHIC – European Health Insurance Card with you!). They will issue a certificate you need to submit upon enrolment. If you are still younger than **30 years**, you can alternatively contract public student health insurance.

If you do not have a Romanian health insurance and cannot contract German public health insurance, you need to contract **private health insurance**. For enrolment, you will additionally need a certificate of a public health insurance company stating that you have private insurance.

You can obtain information regarding private health insurance from Dr. Mihai Márton or Sandra Roth.
