

Sonderforschungsbereich 1277

Emergent Relativistic Effects in Condensed Matter -
From Fundamental Aspects to Electronic Functionality

SFB - Colloquium

Speakers: **Marina Marocko** and **Jonas Bauer**
University of Regensburg

Date: Tuesday, 18. Januar 2022, 14:15, online via Zoom

Topics: „Spin-orbit interaction and advanced spin transport in
graphene-based heterostructures”

“Probing exciton population dynamics in 2D semiconductors by
sum-frequency generation and four-wave mixing ”

Vorstellungsvorträge neuer DoktorandInnen im SFB1277 / IRTG

Gastgeber: Prof. Dr. Christoph Strunk und Prof. Dr. Ferdinand Evers
