### Declaration of consent to the transfer of an unpublished thesis to the University Library Regensburg

(please also submit to the examinations office if consent is not given)

Academic theses may contain important research results, even when they are unpublished. The University Library, therefore, offers authors, in agreement with first examiners, to accept unpublished theses into the library system, thus making them generally accessible. The titles are listed in the catalogs and can thus be found. The copy is made available for loan and interlibrary loan. The declaration of consent cannot be withdrawn; a subsequent limiting of use is not possible. The copy becomes the property of the library who exercise power of disposition over it. It is at the library's discretion if and how the copy is recorded in the library's system.

I declare my consent to the transfer of an additional copy of my thesis (which I shall submit) to the library and the granting of the rights named above. I affirm that I am the sole holder of all rights to the work presented.

I do not give my consent to the transfer to the library and the granting of the rights named above.<sup>1</sup>

Date: signature, candidate:

I declare my consent to the transfer and the granting of the rights named above.<sup>2</sup>

Date: signature of the first examiner:

<sup>1</sup> Should consent not be given, the thesis will remain in the examination files for 5 years. After 5 years has passed, it will be passed on to the University Archives. It will be decided there whether it will be permanently archived.

<sup>2</sup> We ask that the agreement of the first examiner is obtained before the thesis is handed in to the examination's office.
