

Information:

Terminating enrollment before completing the program / when examination attempts are still open

Should you terminate your enrollment before completing your studies, we point out that termination of enrollment during a continuing examination procedure (i.e. when it is still possible to retake the examination) does not affect the retake deadlines. This means that it is still possible to retake the examination, and that the time limit for this will continue to run down. The termination of enrollment, therefore, has no effect on examinations.

The fact that the time limits continue to run down is embedded in the relevant course and examination regulations.

See, for example, the regulations in:

- § 25 Para. 2 Clause 2 of the in-force version of the regulations for the Bachelor's Program in Chemistry from July 14, 2010, (Prüfungs- und Studienordnung für den Bachelorstudiengang Chemie vom 14. Juni 2010);
- § 25 Para. 1b and 2a of the in-force version of the regulations for the Bachelor's Program in Business Chemistry from August 1, 2017, (Prüfungs- und Studienordnung für den Bachelorstudiengang Wirtschaftschemie vom 1. August 2017);
- § 23 Para. 2 Clause 2 of the in-force version of the regulations for the Master's Program in Chemistry from June 14, 2010, (Prüfungs- und Studienordnung für den Masterstudiengang Chemie vom 14. Juni 2010);
- § 23 Para. 1 Clause 4 of the in-force version of the regulations for the Master's Program in Complex Condensed Materials and Soft Matter (COSOM) from August 25, 2011, (Prüfungs- und Studienordnung für den Masterstudiengang Complex Condensed Materials and Soft Matter (COSOM) vom 25. August 2011);
- § 24 Para. 1 Clause 4 of the in-force version of the regulations for the Master's Program in Advanced Synthesis and Catalysis (SynCat) from June 8, 2016, (Prüfungs- und Studienordnung für den Masterstudiengang Advanced Synthesis and Catalysis (SynCat) vom 8. Juni 2016);
- § 23 Para. 2 Clause 3 of the in-force version of the regulations for the Master's Program in Business Chemistry from August 3, 2020, (Prüfungs- und Studienordnung für den Masterstudiengang Wirtschaftschemie vom 3. August 2020);
- § 23 Para. 1 Clause 4 of the in-force version of the regulations for the Master's Program in Medicinal Chemistry from July 27, 2020, (Prüfungs- und Studienordnung für den Masterstudiengang Medicinal Chemistry vom 27. Juli 2020);

The same holds in case of a leave of absence (with the exception of one based on a stay abroad).

If you started your bachelor's or master's program at Universität Regensburg, but are now continuing it at another university, and your enrollment is being terminated for this reason, it is recommended to submit a corresponding certificate of enrollment to the examination office when you notify them. In this case, it may be that the new university has taken on the examination procedure.

If you have any questions, please contact: Admin. Division I/5 (Examination Office) and Admin. Division I/2 (Studies-Related Legal Matters)
