

Declaration of parental consent for study by a minor

Starting to study not only results in rights for the student, but also responsibilities. Due to their limited legal competence, minors, therefore, need the consent of their legal guardian. This consent must be confirmed at the time of enrollment in a program (matriculation) at the latest.

For programs with restricted admittance, for which an eligibility test (master's) or aptitude assessment procedure (bachelor's) is provided for, there is an application process to complete before enrollment. Taking part in this process also requires the consent of the parent(s) or legal guardian(s). In such cases, therefore, it is necessary that your separate consent form is submitted together with your child's application documents.

The consent to take up studies covers all activities and responsibilities related to the studies, and also the related declarations. These activities and responsibilities include, in particular:

- use of the University Library
- use of IT services, in particular unrestricted Internet access
- participation in university courses, examinations and other curricular activities, including external courses, internships and excursions
- participation in laboratory experiments
- participation in the university's sports program (voluntarily)
- the responsibility to pay the semester fee
- requests for continuation of the studies (reenrollment)

Applications for leave of absences from the studies, compensation for disadvantage (Nachteilsausgleich), extensions to examination deadlines, and withdrawal from examinations each require a separate declaration of consent.

Every student has to pay the semester fee (student union fees and RVV semester ticket). This must also be paid with every re-enrollment.

Your child is able to use the university library, and the Universität Regensburg IT services for the purposes of study. Upon valid enrollment and submission of the attached declaration, your child will receive the right to use the library and the IT services (including Internet access). The Internet access is unlimited.

Universität Regensburg takes neither personnel-related nor technical precautions in respect to the protection of young people in this regard (for example supervision or use of software to filter pornographic or illegal contents from the Internet).

I/we have taken note of the information given above and agree to be bound by it.

I/we give my/our consent to our child

..... (name, birth date)

**taking up studies in the program
at Universität Regensburg.**

**I/we give our consent that declarations and notifications from the
university are directly delivered to our child.**

Place, date

Signature of the parent(s) or legal guardian
