Universität Regensburg
Faculties of Chemistry and Pharmacy and Business, Economics & Management
Information Systems invite applications for a
developing professorship of Business Chemistry
(grade W 2 with tenure-track leading to professorship for life at grade W 2)

for a period of six years with the legal status of temporary civil servant (Beamtenverhältnis auf Zeit),
to be appointed as soon as possible. The tenure-track professorship is supported by the
Federal/Länder program for the promotion of young scientists (tenure-track program). The program
aims to forge transparent paths for young academics so they can plan their progression to
professorships. For this reason, we explicitly encourage applications from young academics who
have only recently achieved their doctorates. We are looking for a highly qualified scientist with an
innovative scientific profile, outstanding initial scientific achievements and extraordinary potential
for their further academic career. Universität Regensburg offers the prospect, upon positive tenure
evaluation, of transferring to a permanent position as W 2 grade professor with the legal status civil
servant for life (Beamtenverhältnis auf Lebenszeit). The requirements for the tenure evaluation can
be found at https://go.uni-regensburg.de/tt-satzung.

Successful applicants (f/m/d) are well-experienced and internationally renowned for research
activities in business chemistry with special focus on sustainable process and quality
management. Scientific collaboration to support current and future research initiatives of both
faculties within the context of sustainability is expected as, for instance, commitment to the activities
of the Carl von Carlowitz Center (CCC) for sustainable chemistry (www.green-chemistry.de). The
successful candidate is furthermore expected to lead teaching activities in the new study programs
BSc and MSc Business Chemistry as well as the relevant curricular elements of MSc Chemistry and
MSc Business Administration. Active participation in the different levels of academic administration
is an integral part of this position.

In accordance with Universität Regensburg's statute on the appointment of tenure-track professors
from February 14, 2020, the prerequisites named in Art. 14 Bavarian University Staff Act
(BayHSchPG) apply to the appointment of a developing professor. This means, above all, particular
aptitude for academic work, generally shown by a doctoral degree, and further academic
performance commensurate with the early phase of a career.

Applicant must have changed universities following the doctorate or have been academically active
for at least two years somewhere other than Universität Regensburg before the application.

Universität Regensburg is particularly committed to reconciling family and working life (for more
information, see http://www.uni-regensburg.de/chancengleichheit). To fulfill the equality directive
and increase the number of female professors, we explicitly encourage applications from qualified
women.

In case of essentially similar suitability, applicants with severe disabilities will be preferentially
selected.

The prerequisites for appointment under civil servant law are based on the provisions of the Bavarian
Public Service Code (BayBG) and the Bavarian University Staff Act (BayHSchPG).

Applications containing the normal documents (resume, certificates, list of publications with copies
of the most important papers) should be submitted, preferentially electronically

by July 4th, 2021

to the dean’s office of the faculty Chemistry and Pharmacy (Dekan der Fakultät für Chemie und
Pharmazie, Herrn Prof. Dr. Jörg Heilmann, Universität Regensburg, D-93040 Regensburg;
fakultaet.chemie@verwaltung.uni-regensburg.de).
