The Faculty of Biology and Pre-Clinical Medicine invites applications for a
Full Professorship W3
for Super-Resolution Microscopy

The appointment, to be made as soon as possible, is permanent with the legal status of a civil servant for life (Beamtenverhältnis auf Lebenszeit).

We are looking for an outstanding internationally renowned expert in optical super-resolution microscopy. Candidates should have a track record of methods development with a proven capability of applying super-resolution microscopy to address biological questions. The successful applicant will be expected to actively contribute to the interdisciplinary research networks in the Department of Biology and Preclinical Medicine, and to participate in the development of ultrafast microscopy techniques in the context of the “Regensburg Center for Ultrafast Nanoscopy” (RUN). Active participation in and close interaction with the “Regensburg Center for Biochemistry” (RCB) is expected. The candidate’s research program should further strengthen current and future research priorities in the department, in particular in the field of RNA biology (SFB960 “Ribonucleoprotein complexes”).

The successful candidate will be expected to teach courses in biology, biochemistry and biophysics at the level of bachelor’s and master’s degrees, and should be willing to take on administrative responsibilities.

Applicants should have a proven ability of acquiring third-party funding. The prerequisites for this position are a university degree and a doctorate in biology, biotechnology, biochemistry, chemistry or physics; the demonstration of teaching skills at the university level; and additional scholarly achievements, such as a habilitation. Equivalent academic experience gained outside of the university environment, or while employed as Junior Professor, will also be taken into consideration and may be considered equivalent to formal academic qualifications.

Universität Regensburg is particularly committed to reconciling family and working life (for more information, see www.uni-regensburg.de/familienservice). To fulfill the equality directive and increase the number of female professors, we explicitly encourage applications from qualified women.

Candidates with severe disabilities and essentially equivalent qualifications will be given preferential consideration.

The legal requirements for appointment to the civil service are based on the Bavarian Public Service Code (BayBG) and the Bavarian University Staff Act (BayHSchPG).

Please submit your application (including a curriculum vitae with copies of academic certificates and degrees, a teaching portfolio and a statement of teaching philosophy, a list of third-party funded projects, a list of publications with copies of the most important papers and a description of research interests with a statement of research), preferably by email,

by October 27, 2021

to the dean’s office of the Faculty of Biology and Pre-Clinical Medicine (den Dekan der Fakultät für Biologie und Vorklinische Medizin, Herrn Prof. Dr. Gunter Meister, Universität Regensburg, D-93053 Regensburg; Fakultaet.Biologie@verwaltung.uni-regensburg.de).
