Seminar
Summer Term 2026**

**54 526 Advances in Animal Behaviour:
Cooperation and Conflict
(2-stdg.)**

BSc Biology (Biologisches Seminar)
MSc Biology (Seminar for the Theoretical Module Zoology)

Time and room by arrangement.

Registration and selection of topics:
bernd.kramer@ur.de

registration until Wednesday, 15 April 2026

**Preliminary meeting: 15th April 2026, 9:00 am
Seminar room DE._1.113**

Prof. Dr. Bernd Kramer
Institut für Zoologie

Regensburg, 23 January 2025

Not only our own life, but also the lives of animals are marked by both conflict and cooperation with conspecifics. In animals, cooperative interactions are often limited to relatives or sex partners, but conflict may arise about resources and their distribution. In this English-language seminar, we discuss recent papers at the forefront of cooperation-and-conflict research.
