Faculty of Mathematics	Faculty of Physics	Faculty of Biology and Preclinical Medicine	Faculty of Chemistry and Pharmacy

University of Regensburg

- founded in 1962 as a public research university in Bavaria, Germany
- 12 faculties
- about 315 professors
- approximately 20000 students
- more than 150 degree programs
- strong international orientation with numerous global partner universities

Faculty of Informatics and Data Science

- founded on 6 March 2020
- five departments with a total of 27 professorial chairs
- October 2023: start of the two new Bachelor Programs *Computer Science* and *Data Science*
- December 2024: first doctoral degree awarded
- October 2025: start of the three new international Master Programs *Computer Science*, *Data Science* and *Human-Centred AI*

Data Engineering Group

- chair holder: Meike Klettke
- researchers: 5 PhD students, 1 PostDoc and 1 habilitation candidate
- research topics:
 1. evolution of (non-relational) data
 2. data profiling: extraction of schemas and semantic constraints from data
 3. monitoring data engineering pipelines
 4. data engineering methods for the humanities and natural sciences
- teaching: databases and data engineering
