

Fächerangebot der Universität Regensburg **Graduate Courses (Master)**

The master course is a graduate degree program that generally lasts **four semesters**. Prerequisite for acceptance into a master's program is the completion of a bachelor degree or an academic certificate of equal worth. Examination rules regulate which degree courses (majors) or bachelor degrees will be approved as prerequisites for admission into the respective master's program. There is a difference between the **Master of Arts (M.A.)** and the **Master of Science (M.Sc.)**. Only **one subject** is studied in a master's program (e.g. no combination of subjects).

Selection Process:

A selection process takes place for every master degree program, in which the respective institute decides on the formal and qualitative eligibility of the applicant. The decision on admission is usually taken on the basis of the written application documents (without interview or test) by every institute independently. Therefore, the application documents must be directed either to the corresponding institute or the [Campusportal](#).

Information online:

An overview of the subjects offered at the University of Regensburg as well as detailed information on each subject (including the most important links) can be found on the following homepage:

Information about German language certificates and DSH

For most fields of study, a German language test, the DSH, needs to be taken before you can start the program. Usually, a result of DSH2 is required to enroll. For several fields of study, a DSH test result of DSH1 suffices or you may not need to take a German language test at all if the area of study is taught in English. Please see the section "Special Features" for more information.
