The University of Regensburg and the International Movement and Nutrition Society will host the Third International Conference on Movement and Nutrition in Health and Disease. We are pleased to invite you to join us for this conference, scheduled for June 29 - July 1, 2017 in Regensburg, Germany.

Physical activity and nutrition play an important role in long-term health and disease. Our Conference will cover a wide range of topics appealing to the interests of clinicians, researchers, practitioners and experts from industry. It will provide you with ample opportunity to share and exchange knowledge and experience in regard to the **contribution of diet, nutrition, physical exercise and sport to a healthy lifestyle, unimpaired aging, and the prevention and management of chronic diseases** such as heart and cardiovascular disease, overweight and obesity, metabolic syndrome, diabetes, cancer, kidney disease, allergies, rheumatoid arthritis, osteoporosis, dementia, depression, and other neuropsychiatric disorders. A special topic of the conference will be the **role of physical activity in the prevention of chronic diseases**.

The conference venue is on the campus of the University of Regensburg in Bavaria. The almost 2000-year-old city of Regensburg with its magnificent Gothic cathedral is inscribed on the UNESCO World Heritage List. Regensburg is the best-preserved medieval city in Germany and boasts numerous attractions from the times when Regensburg was a fortress on the border of the Roman Empire and in the Middle Ages a wealthy trading place in Central Europe. The city was later the seat of the Permanent Imperial Parliament.

Apart from discussing recent research developments you will be able to enjoy the charming atmosphere of Regensburg. We look forward to welcoming you to Regensburg this July.

**Klaus W. Lange**, President  
University of Regensburg, Germany

**Jianjun Guo**, Vice President  
China Institute of Sport Science

**Shigehiko Kanaya**, Vice President  
Nara Inst. of Science & Technology, Japan

**Abstract submission** deadline for oral and poster communications is **May 28, 2017**.
